The Missing Element - Debra Silverman 2016-03-01

Everyone longs to be understood in their essence. In "The Missing Element", author Debra Silverman describes human nature in a compassionate and succinct way, and offers ways for us to get to know ourselves in depth with the wisdom of archetypes. The information in this book stands on the shoulders of our elders, who understood the four directions, the four elements, the four noble truths. Whatever pain you experience is specific to your personality type, based on the four elements. The 'missing element' is twofold: it refers to the Observer inside you - the part of you that can stand outside of judgment and see yourself with a more wise and compassionate approach - much like our elders did. And it also refers to the elements that make up your personality and more specifically, to the element which is your weakest. Your issues will repeat themselves again and again until you can see yourself and others from the compassionate vantage point that unites all of us. You will understand that your life and all its stories were designed by your soul to get your attention right now. It is inviting you to seek the wisdom of the ages to help you grow... that's why you found this book at this moment in time!

Charting the Soul - Rebekah Hirsch 2016-09-23

Charting the Soul is a synthesis of knowledge and understanding from the three fields of astrology, psychology and energy healing. The author is a professional astrologer, energy healer and process facilitator and she poses the idea that the three disciplines are three overlapping ways of engaging with a person's Human Energy Field. In the first place, Charting the Soul is based on Wilhelm Reich's psychological model of 'characterology'. Reich spoke of five distinct character types emerging from five stages of child development; the Schizoid, the Oral, the Masochist, the Psychopath and the Rigid. From this foundation, Charting the Soul goes on to make the link between characterology and astrology. The author describes the way in which specific planets are linked to each of the five character types. She shows how the pattern of the planets in the horoscope will indicate the balance of a person's characterology, illuminating both their childhood history and the character types they most identify with. Thus the traditional understanding of the character types is illuminated and expanded by the profound wisdom of astrology. From the spiritual view, this book takes us beyond the traditional psychological interpretation of the character types. Rebekah Hirsch recognises the impact of traumatic childhood experiences but she also sees the light of the divine essence of each living being eternally shining through from the core of all human experience. She suggests that the character types could be seen as five stages of the soul's journey into incarnation, each stage a necessary part of the creative process and bringing through essential gifts of genius, compassion, creativity, courage and wisdom. The main part of the book has been written so as to be understandable by non-astrologers. The focus is on an exploration of the archetypal nature, the core essence of each of the planets in the horoscope. The author also gives an overview of the energy structures of the human energy field. She describes how, using higher sense perception, each of the planets radiates qualities of light, shadow and movement - a distinct energy signature, appearing as a recognisable vibrational pattern in the human energy field. Staying with the theme of the five character types, the final section of the book comprises five case studies of Jimi Hendrix, Marilyn Monroe, Orson Welles, Frida Kahlo, and Pierre Teilhard de Chardin. This section is written for those with a more advanced understanding of astrology. Each case describes how the planets in the horoscope show the development of the character types through childhood as well as indicating the beautiful gifts and talents each soul brought into manifestation in the world of matter. Above all, this book is about awareness; about the divine nature of being alive and the power and beauty of each individual struggling to bring their own unique essence through into the world of matter. This book should be of

interest to all students of astrology, particularly psychological astrology; also to a wide range of therapists and practitioners, particularly in the fields of Bio-Energetics, Core Energetics, Brennan Healing Science and Hakomi as well as to all individuals on a path of spiritual and emotional growth.

[Astrology](#) - Isabel M. Hickey 1992

[Exploring Jupiter](#) Stephen Arroyo 1996

This book is the very essence of Jupiter. From its apt title, to its generous use of many famous chart examples, to Arroyo's trademark insight and wisdom on every page, "Exploring Jupiter" is positively a winner! The presentation of the astrology is clear, practical and intelligent, making it a must for both newer students and more experienced practising astrologers. Unlike the majority of modern astrologers, Arroyo refers to Jupiter's ancient rulership of Pisces as being significant, and the book is written with this in mind. Otherwise much of the book is built on the usual "cookbook" approach: Jupiter through the signs, Jupiter through the houses (arranged by element), Jupiter aspects in the birth chart and so on. As always with Stephen Arroyo, it is the clarity and profound depth of these guidelines for interpretation that is so striking. The chapter on transits involving Jupiter is particularly good, building on ideas he has expressed in earlier writings.

[Signs of the Times](#) - Robert Fitzgerald 2005-10-01

The Signs of the Times is a fascinating account of how time and history follow an astrological structure. This structure consists of astrological ages that are chronicled from before the Age of Cancer, and the invention of agriculture around the world, to the present end of the Age of Pisces, and the much-prophesied Apocalyptic end of the world. Within this pattern an end-time cycle emerges that explains the Apocalyptic energies that we see around us today. Astrology also promises, in the coming Age of Aquarius, a new golden age and gives us indications of what needs to be done to survive this end-time. Robert FitzGerald is an artist, photographer, and theoretical astrologer. For more than 25 years, he has been pushing the boundaries of astrology into theories of religion, mythology, mathematics, genetics, geology and physics. [Name of your book] reveals a revolutionary vision of history based on the ancient cycles of astrology. His vision of life on this planet promises to change the way humanity looks at history and at the world around us. He grew up in California and now lives and works at Maharishi University of Management in Fairfield, Iowa, a community dedicated to expanding our knowledge of the world by combining spiritual knowledge with the scientific.

[Saturn](#) - Liz Greene 2021-12-01

This classic astrology text, revered by beginners and professional astrologers alike, is now available in a Weiser Classics edition. "The most important single contribution of twentieth-century astrology is that astrology is not a map of one's fixed destiny but is a potential map of the unfolding of the authentic, higher self." —Robert Hand, from the foreword Saturn's darker persona is recognized universally in myth and fairytale. In this classic astrology text, renowned astrologer and Jungian analyst Liz Greene offers a fresh perspective on how to handle the influence of this much-maligned astrological symbol. In Saturn, Greene shows us how the frustrating experiences connected to this planet can be turned into opportunities for greater insight and meaning in our lives. Saturn, she says, symbolizes a psychic process—one that allows us to utilize the experience of pain for self-discovery and a more fulfilling and complete life. Greene retraces Saturn's character through sign, house, aspect, and synastry in a brilliant analysis that reveals his other face: that of the initiator who, for the price of our honesty with ourselves, offers us greater consciousness, self-understanding, and, eventually, freedom.

Earth and Air Darby Costello 2018-08-06

This is the second of two volumes of transcribed lectures Darby Costello

presented for the CPA in which she shared a dynamic and imaginative exploration of the four astrological elements. Poetic and comprehensive, this volume is a must-have introduction to the elements. Part One: Earth. Discover the nature and meaning of the earth element beginning with the importance of the earth rituals of archaic cultures. Next, explore the meaning of planetary placements in the three earthy signs, and the qualities of the planetary rulers of those signs. The complexity and subtlety of earth is further revealed through an analysis of the chart of Teilhard de Chardin, the remarkable Christian mystic and scientist who integrated two apparently disparate yet intimately connected dimensions of earth which form the great paradox of this element - its rationality and respect for facts, and its profound sense of the magic and transpersonal mystery inherent in the heart of material reality. Part Two: Air. The air element is often mistakenly thought to be "merely" rational. In this seminar Darby takes us on an expansive flight into the upper regions of the mind, exploring first the meaning and nature of air, and then examining planetary placements in the three airy signs and the attributes and mythology of the airy planetary rulers - which, according to traditional astrology, each govern both an earthy and an airy sign. The fluid and effervescent spirit of air is further revealed through the chart of the great poet W. B. Yeats, whose vision, fertility of ideas, and love of beauty in form and idea portray the essential nature of this most elusive of the astrological elements.
