A Grammar of Gurindji - Felicity Meakins 2021-09-06

Gurindji is a Pama-Nyungan language of north-central Australia. It is a member of the Ngumpin subgroup which forms a part of the Ngumpin-Yapa group. The phonology is typically Pama-Nyungan; the phoneme inventory contains five places of articulation for stops which have corresponding nasals. It also has three laterals, two rhotics and three vowels. There are no fricatives and, among the stops, voicing is not phonemically distinctive. One striking morpho-phonological process is a nasal cluster dissimilation (NCD) rule. Gurindji is morphologically agglutinative and suffixing, exhibiting a mix of dependent-marking and head-marking. Nominals pattern according to an ergative system and bound pronouns show an accusative pattern. Gurindji marks a further 10 cases. Free and bound pronouns distinguish person (1st inclusive and exclusive, 2nd and 3rd) and three numbers (minimal, unit augmented and augmented). The Gurindji verb complex consists of an inflecting verb and coverb. Inflecting verbs belong to a closed class of 34 verbs which are grammatically obligatory. Coverbs form an open class, numbering in the hundreds and carrying the semantic weight of the complex verb.

A Grammar of Bilinarra - Felicity Meakins 2013-12-12

This volume provides the first comprehensive description of Bilinarra, a Pama-Nyungan language of the Victoria River District of the Northern Territory (Australia). Bilinarra is a highly endangered language with only one speaker remaining in 2012 and no child learners. The materials on which this grammatical description is based were collected by the authors over a 20 year period from the last first-language speakers of the language, most of whom have since passed away. Bilinarra is a member of the Ngumpin subgroup of Pama-Nyungan which forms a part of the Ngumpin-Yapa family, which also includes Warlpiri. It is non-configurational, with nominals commonly omitted, arguments cross-referenced by pronominal clitics and word order grammatically free and largely determined by information structure. In this grammatical description much attention is paid to its morphosyntax, including case morphology, the pronominal clitic system and complex predicates. A particular strength of the volume is the provision of sound files for example sentences, allowing the reader access to the language itself.

The Most Dangerous Game - Richard Connell 2020-04-21

From one of America's most popular short story writers and an Academy Award nominee: the O. Henry Award-winning tale that inspired the movie *The Hunt*. A subject of mysterious rumors and superstition, the deserted Caribbean island was shrouded in an air of peril. To Sanger Rainsford, who fell off a yacht and washed up on its shores, the abandoned isle was a welcome paradise. But unknown to the big-game hunter, a predator lurked in its lush jungles—one more dangerous than any he had ever encountered: a human. First published in 1924, this suspenseful tale "has inspired serial killers, films and stirred controversy in schools. A century on, the story continues to thrill" (*The Telegraph*). "[A] tense, relentless story of man-against-man adventure, in which the hunter Sanger Rainsford learns, at the hands of General Zaroff, what it means to be hunted." —*Criterion*
