Design for Doctor Who Piers D. Britton
2021-06-17

The long-running popular TV series Doctor Who is, Piers Britton argues, a 'uniquely design intensive text': its time-and-space-travel premise requires that designers be tirelessly imaginative in devising new worlds and entities and

recreating past civilizations. While Doctor Who's attempts at worldbuilding are notorious for being hit-and-miss – old jokes about wobbly walls and sink plungers die hard – the distinctiveness of the series' design imagery is beyond question. And over the course of six decades Doctor Who has produced designs which are not only iconic but, in being repeatedly revisited and updated, have proven to be an ever-more important element in the series' identity and mythos. In the first in-depth study of Doctor Who's costumes, sets and graphics, Piers Britton offers an historical overview of both the original and the revived series, explores theoretical frameworks for evaluating Doctor Who design, and provides detailed analysis of key images. Case studies include the visual morphology of Doctor Who's historical adventures, the evaluative character of cosplay, and the ongoing significance for the Doctor Who brand of such high-profile designs as the Daleks and the TARDIS interior, the 'time-tunnel' title sequence, and the costumes of the Fourth and Thirteenth Doctors.

TARDISbound - Piers D. Britton 2011-03-30 'Doctor Who' has always thrived on multiplicity, unpredictability and transformation, its worlds and characters kaleidoscopic and shifting, and 'Doctor Who's complexity has grown. With its triumphant return to TV in 2005, it was made up of four different fictional forms, across three different media, with five actors simultaneously playing the eponymous hero. 'TARDISbound' is the first book to deal both with the TV series and with the 'audio adventures', original novels, and short story anthologies produced since the 1990s, engaging with the common elements of these different texts and with distinctive features of each. 'TARDISbound' places 'Doctor Who' under a variety of lenses, from examining the leading characteristics of these 'Doctor Who' texts, to issues of class, ethnicity and gender in relation to the Doctor(s), other TARDIS crew-members, and the non-human/inhuman beings they encounter. 'TARDISbound' also addresses major questions about the aesthetics and ethical implications of 'Doctor Who'.

encounter with Amelia Earhart where she discovered that a pencil-thick spider web can stop a plane; had a 'wet weekend' with Harry Houdini, learning how to escape from chains underwater; and more. In this collection of new stories, Star Tales takes you on a rip-roaring ride through history, from 500BC to the swinging 60s, going deeper into the Doctor's notorious name-dropping and revealing the truth behind these anecdotes.
