**Liquor Store Theatre** - Maya  
Stovall 2020-11-06

For six years Maya Stovall  
staged Liquor Store Theatre, a  
conceptual art and  
anthropology video project---  
included in the Whitney  
Biennial in 2017---in which she  
danced near the liquor stores  
in her Detroit neighborhood as  
a way to start conversations  
with her neighbors. In this  
book of the same name, Stovall  
uses the project as a point of  
departure for understanding  
everyday life in Detroit and the

possibilities for ethnographic  
research, art, and knowledge  
creation. Her conversations  
with her neighbors—which  
touch on everything from  
economics, aesthetics, and sex  
to the political and economic  
racism that undergirds  
Detroit's history—bring to light  
rarely acknowledged  
experiences of longtime  
Detroiters. In these exchanges,  
Stovall enacts an innovative  
form of ethnographic  
engagement that offers new  
modes of integrating the social  
sciences with the arts in ways  
that exceed what either  
approach can achieve alone.

imaging, digital treatment planning, and all aspects of implant placement. Individual chapters are devoted to different procedures, including the extramaxillary surgical technique, extended sinus lift with retained bone window, the anatomy-guided approach, the quad zygoma technique, and static and dynamic guided surgery. The use of zygomatic implants specifically in oncology patients is also given detailed consideration. Today, the zygomatic approach offers many advantages for patients with severe maxillary resorption, in whom grafting was in the past unavoidable. In providing an up-to-date global perspective on the zygoma concept, this book will be an invaluable source of guidance for practitioners at all levels of experience.
