The Langoliers - Stephen King 2019-11-12

Stephen King's unforgettable novella—first included in his 1990, award-winning collection Four Past Midnight and made into a highly acclaimed miniseries—about a terrifying plane ride into a most unfriendly sky. On a cross-country, redeye flight from Los Angeles to Boston, ten passengers awaken in Bangor, Maine, to find that the crew and most of their fellow passengers have disappeared. The airport shows no signs of life. Yet they hear "radio static" in the distance. Craig Toomey, an irritable investment banker on the verge of a breakdown, believes it is "The Langoliers," monsters he was afraid of as a child who attack those who waste time. It's mystery author Bob Jenkins who first theorizes that they have flown through a time rip. Bob declares they have entered a place that forbids time travelers to observe or interfere with past events. It turns out that Craig is right, in a way. Two creatures, followed by hundreds more, emerge from the forest and head for the plane, consuming everything in their path. Can the survivors manage to fly the plane back to Los Angeles, back to the correct time, before The Langoliers succeed in their deadly mission to destroy the plane and the world? Dinah Bellman, the young blind girl whose aunt did not survive the time rip, has the greatest insight of all. A spine-tingling, propulsive novella, The Langoliers is a brilliant read from the masterful Stephen King.

Fairy Tale - Stephen King 2022-09-06

Legendary storyteller Stephen King goes into the deepest well of his imagination in this spellbinding novel about a seventeen-year-old boy who inherits the keys to a parallel world where good and evil are at war, and the stakes could not be higher - for their world or ours. Charlie Reade looks like a regular high school kid, great at baseball and football, a decent student. But he carries a heavy load. His mom was killed in a hit-and-run accident when he was ten, and grief drove his dad to drink. Charlie learned how to take care of himself - and his dad. Then, when Charlie is seventeen, he meets a dog named Radar and her aging master, Howard Bowditch, a recluse in a big house at the top of a big hill, with a locked shed in the backyard. Sometimes strange sounds emerge from it. Charlie starts doing jobs for Mr. Bowditch and loses his heart to Radar. Then, when Bowditch dies, he leaves Charlie a cassette tape telling a story no one would believe. What Bowditch knows, and has kept secret all his long life, is that inside the shed is a portal to another world. King's storytelling in *Fairy Tale* soars. This is a magnificent and terrifying tale about another world than ours, in which good is pitted against overwhelming evil, and a heroic boy - and his dog - must lead the battle.

How Tobacco Smoke Causes Disease - 2010

This report considers the biological and behavioral mechanisms that may underlie the pathogenicity of tobacco smoke. Many Surgeon General's reports have considered research findings on mechanisms in assessing the biological plausibility of associations observed in epidemiologic studies. Mechanisms of disease are important because they may provide plausibility, which is one of the guideline criteria for assessing evidence on causation. This report specifically reviews the evidence on the potential mechanisms by which smoking causes diseases and considers whether a mechanism is likely to be operative in the production of human disease by tobacco smoke. This evidence is relevant to understanding how smoking causes disease, to identifying those who may be particularly susceptible, and to assessing the potential risks of tobacco products.
