Seen within the broad principles of Islamic law, the book examines the status of women with regard to marriage, the iddat, parentage and fosterage and custody, and fills an important gap left by recent and more general publications on Islamic law.

This timely volume brings together contributions by 14 established Muslim and Western scholars. It intends to present a somewhat more positive outlook in the currently rather strained relations between the Islamic world and Europe by drawing on shared values and possibilities of cooperation in various fields, such as those reflected in worldview, education, economics, multiculturalism, religious dialogue, politics, as well as security issues. It also contains a historical reevaluation of some of those contacts.

The Lines We Cross - Randa Abdel-Fattah 2017-05-09

A remarkable story about the power of tolerance from one of the most important voices in contemporary Muslim literature, critically acclaimed author Randa Abdel-Fattah. Michael likes to hang out with his friends and play with the latest graphic design software. His parents drag him to rallies held by their anti-immigrant group, which rails against the tide of refugees flooding the country. And it all makes sense to Michael. Until Mina, a beautiful girl from the other side of the protest lines, shows up at

his school, and turns out to be funny, smart -- and a Muslim refugee from Afghanistan. Suddenly, his parents' politics seem much more complicated. Mina has had a long and dangerous journey fleeing her besieged home in Afghanistan, and now faces a frigid reception at her new prep school, where she is on scholarship. As tensions rise, lines are drawn. Michael has to decide where he stands. Mina has to protect herself and her family. Both have to choose what they want their world to look like.

Islam is the All-divine Messages in Mohammed Higab 1983

The Essentials of Ibadi Islam - Valerie J. Hoffman 2012-05-22

Ibadi Islam is a distinct sect of Islam, neither Sunni nor Shi'ite, that emerged in the early Islamic period and remains active today in small pockets of North Africa and as the dominant sect of Oman. Despite its antiquity, it has often been misunderstood and remains little known. Seeking to redress this gap and to introduce this Islamic school to the non-Arabic-speaking world, Hoffman offers the first book-length overview of Ibad.i theology published in English. Beginning with a concise overview of Ibad.i history, Hoffman delineates the movement's role in the development of Islamic thought, tracing its distinctive teachings and literary history. In the second section, she provides annotated translations of two complementary modern Ibad.i theological texts. This unique volume elucidates Ibad.i religious and political thought by allowing its tradition to speak for itself. The Essentials of Ibad.i Islam gives readers, specialists and nonspecialists alike, a rare opportunity to understand the major teachings of Ibad.i Islam.

A Pelican Book: Islam Tariq Ramadan 2017-05-23

The essential introduction to Islam by a leading expert Hardly a day goes by without mention of Islam. And yet, for most people, and in much of the world, Islam remains a little-known religion. Whether the issue is

violence, terrorism, women's rights or slavery, Muslims are today expected to provide answers and to justify what Islam is - or is not. But little opportunity exists, either in the media or in society as a whole, to describe Islam: precisely the question this short and extremely accessible book sets out to answer. In simple, direct language it will introduce readers to Islam, to its spirituality, its principles, its rituals, its diversity and its evolution.

Essentials of Islamic Faith - Suhaib Webb 2017-09-07

Studying religion seems like a monumental task; people often don't know where to start, and there are very few organized methods of studying Islam in English that guide a person through the process of education. That has changed! This book presents a matn (introductory text) on Islamic faith that contains the basic foundations of Islamic theology that are obligatory for Muslims to know. Suhaib Webb wrote it in a style that is accessible and digestible for English speaking Muslims, especially parents and teens. It contains the Arabic text, its translation, charts and over 80 questions in a way that encourages learning orthodoxy while enhancing communication and cooperative learning.

Essential Dua's in the Life of a Muslim - Jamiatul Ulama Talimi Board 2016-01-21

All praise is due to Allah Ta'ala, The Supreme Master of all the worlds. Countless Durood and Salaam be upon our beloved Nabi, Sayyidina Muhammad (PBUH). We have been taught by Rasulullah (PBUH) to recite duas at different occasions of our life. From the time we awaken till the time we go to sleep we have been taught to recite these duas. In this manner our entire day passes in the remembrance of Allah Ta'ala. It is mentioned in the Hadith that Rasulullah (PBUH) used to remember Allah Ta'ala at all times. A great amount of the constant remembrance was by means of the recitation of the duas for the various occasions. The recitation of these duas also strengthens our bond with Allah Ta'ala and increases the love for our Creator in our hearts. Parents need to play the very important role of constantly encouraging and reminding their children to recite the duas at the appropriate time. Thus when the child is woken up in the morning, before he enters the toilet and after he

leaves, before and after eating and at all other occasions, the parents should remind the child to recite the dua. In this way it will become a part of their lives and the purpose of teaching these duas will be achieved, Insha Allah.

The Islamic Law of Personal Status - Jamal J. Nasir 2021-10-05

This new edition of the authoritative English-language treatment of Islamic personal status law gives practitioners and courts throughout the world direct access to this important body of law in its most up-to-date development. All Middle Eastern and North African Arab states are covered; new to this edition is coverage of recent provisions enacted in Kuwait, Yemen, and Sudan. The chapter on dissolution of marriage has been completely revised to reflect current legal interpretation and judicial practice in this rapidly changing area of Islamic law. Also new and especially valuable are English versions, for the first time anywhere, of fundamental Shiite and Jaafari legal works with the most thorough analysis and commentary available in any non-Arabic source. Dr. Nasir's much-appreciated methodology has been continued since the very successful first edition of 1986. For each topic - e.g., marriage, dower, dissolution of marriage, parentage, inheritance, and waqf - he begins with a consideration of the subject in Sharia law, and then goes on to present legislation and contemporary views, in particular Arab countries. This approach, while it clearly manifests the continuity of Islamic law respecting personal status, is of great practical value to judges and practitioners, especially those who must resolve disputes under Islamic

law in non-Muslim countries.

A Gift for Muslim Bride - Muhammad Haneef Abdul Majeed 2010

The Daily Show (The Book) - Chris Smith 2016-11-22

NEW YORK TIMES BESTSELLER The complete, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.

Essential Message of Islam - Muhammad Yunus 2009

"The Qur'an has been interpreted by many scholars (Muslims and non-Muslims) for centuries, and many interpretive works presently in

circulation are more or less similar in tone and contents. The "Essential Message of Islam," however, is a challenging book that stands apart from the traditional interpretive works. Evolved primarily by a computer-aided scrutiny of the Qur'anic text, the book provides an invaluable source that offers eye-opening and enlightening insights to the Muslims' sacred Text, without any personal, sectarian, cultural or gender influences. The book removes any misconception about Muslim-Christian-Jewish relationships, presenting Islam as a 'Universal Religion' that promotes a peaceful coexistence of people of all faiths. A must read book for all!" -- Publisher description.

Orientalism - Edward W. Said 2014-10-01

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, Orientalism remains one of the most important books written about our divided world.

A Gift for Muslims Ashraf 'Alī Thānvī 2007

Islam - Adeel Zeerak 2012-09-01

One of the largest and fastest-growing religions, Islam is currently practiced by approximately one-fifth of the world's population. Unlike most religions that only consist of acts of worship, rituals, and a set of beliefs, it also offers a just socio-politico-economic system, which is especially important today as we continue to make significant material and scientific progress. However, although it presents real solutions to problems faced by the whole of mankind, factors such as worldwide media propaganda and the current condition of the Muslim community have seriously distorted the public image of Islam. Adeel Zeerak hopes that his book *Islam: A Superior System of Life* will help change all

that. He says that after careful study, even those with non-Muslim unprejudiced minds will appreciate the beauty of his religion's teachings. To prove the superiority of Islamic system over other systems, he provides concrete data obtained from authentic sources and refrains from using boastful or exaggerative language. Chapters in *Islam: A Superior System of Life* include: • This is Islam • Characteristics of the Islamic System • Spiritual System • Social System • Economic System • Political System • The Prophet, peace be upon him, the Message, and the Ummah "Despite commendable progress in the field of science and technology, this world is full of evil, exploitation, and injustice," says Zeerak, who believes any effort to find a solution to our problems continually fails because we choose to ignore the light of Divine Guidance. We all know what happened to prophet Noah's people when they rejected this guidance, but we, thankfully, still exist in this world to follow our Lord and accept Islam. Written for the Muslim and non-Muslim, *Islam: A Superior System of Life* is for readers interested in Islam, the prophet Muhammad (PBUH), the Islamic view of women, the concept of Khilafat, Islamic finance, Islamic spirituality, and Islamic history. The author promises that our obedience to Allah, *subhanahu wa-ta'ala*, will result in endless favors and blessings both in this world and the hereafter.

Mixed Legal Systems, East and West - Vernon Valentine Palmer
2016-07-22

Advancing legal scholarship in the area of mixed legal systems, as well as

comparative law more generally, this book expands the comparative study of the world's legal families to those of jurisdictions containing not only mixtures of common and civil law, but also to those mixing Islamic and/or traditional legal systems with those derived from common and/or civil law traditions. With contributions from leading experts in their fields, the book takes us far beyond the usual focus of comparative law with analysis of a broad range of countries, including relatively neglected and under-researched areas. The discussion is situated within the broader context of the ongoing development and evolution of mixed legal systems against the continuing tides of globalization on the one hand, and on the other hand the emergence of Islamic governments in some parts of the Middle East, the calls for a legal status for Islamic law in some European countries, and the increasing focus on traditional and customary norms of governance in post-colonial contexts. This book will be an invaluable source for students and researchers working in the areas of comparative law, legal pluralism, the evolution of mixed legal systems, and the impact of colonialism on contemporary legal systems. It will also be an important resource for policy-makers and analysts.

Powers and Thrones - Dan Jones 2021-11-09

"Not only an engrossing read about the distant past, both informative and entertaining, but also a profoundly thought-provoking view of our not-really-so-'new' present . . . All medieval history is here, beautifully narrated . . . The vision takes in whole imperial landscapes but also makes room for intimate portraits of key individuals, and even some poems."—Wall Street Journal "A lively history . . . [Jones] has managed to touch every major topic. As each piece of the puzzle is placed into position, the modern world gradually comes into view . . . Powers and Thrones provides the reader with a framework for understanding a complicated subject, and it tells the story of an essential era of world history with skill and style."—The New York Times The New York Times bestselling author returns with an epic history of the medieval world—a rich and complicated reappraisal of an era whose legacy and lessons we are still living with today. When the once-mighty city of Rome was sacked by barbarians in 410 and lay in ruins, it signaled the end of an era—and the beginning of a thousand years of profound transformation. In a gripping narrative bursting with big names—from St Augustine and Attila the Hun to the Prophet Muhammad and Eleanor of Aquitaine—Dan Jones charges through the history of the Middle Ages. Powers and Thrones takes readers on a journey through an emerging Europe, the great capitals of late Antiquity, as well as the influential cities of the Islamic West, and culminates in the first European voyages to the Americas. The medieval world was forged by the big forces that still occupy us today: climate change, pandemic disease, mass migration, and technological revolutions. This was the time when the great European nationalities were formed; when the basic Western systems of law and governance were codified; when the Christian Churches matured as both powerful

institutions and the regulators of Western public morality; and when art, architecture, philosophical inquiry and scientific invention went through periods of massive, revolutionary change. The West was rebuilt on the ruins of an empire and emerged from a state of crisis and collapse to dominate the world. Every sphere of human life and activity was transformed in the thousand years covered by Powers and Thrones. As we face a critical turning point in our own millennium, Dan Jones shows

that how we got here matters more than ever.
