The questions addressed concern the internal mechanisms and triggers for various changes that non-canonical subjects undergo, ranging from semantic motivations to purely structural explanations. The discussion encompasses the whole life-cycle of non-canonical subjects: from their emergence out of non-subject arguments to their expansion, demise or canonicization, focusing primarily on syntactic changes and changes in case-marking. The volume offers a number of different case studies comprising such languages as Italian,

In this learner-centered introductory program, the authors' commitment to a methodology based on true-to-life experiences brings Spanish to life. *Pura vida* is the discovery of a Spanish-speaking world through the experiences of real people who share anecdotes and reflections on those experiences. Students relate to these people and make deeper, more meaningful connections between language and culture, and acquire Spanish with an unparalleled sense of personal engagement. In this 12-chapter introductory program, students don't only learn Spanish for real life, but also from real life. They discover that there is not just one homogeneous Hispanic culture, but rather that each Spanish-speaking country has its own rich, unique culture and that the people who live in these countries speak one common language
