## **Policing Muslim Communities** - Farrukh B. Hakeem 2012-05-02

In the past two decades, Muslim countries across the globe have been faced with a crisis in governance. Starting with a summary of Islamic Law (Sharia) and its implications for law enforcement, this book will highlight the unique needs and challenges of law enforcement, and particularly policing, in these communities. It will provide a scholarly exposition of Sharia law and how it is compatible (or not) with policing in a modern context. The role and contribution of Sharia Law towards conceptualizing law enforcement in a modern context is certainly worth looking forward to, especially understanding its co-existence with civil law in countries with minority Muslim communities. Featuring case studies from throughout the Muslim world, this volume will highlight key qualities of Sharia law and Muslim culture that play a role in law enforcement, including: case processing, community policing, police administration, human rights, and the influence of globalization. Taking a comprehensive approach, this work provides a historical context for colonization events in Muslim countries and their influence on current law enforcement systems, as well as providing key insights into the particular norms that make up the bases for Muslim societies, and their unique needs. Looking into the future, it provides guidelines for how community policing can play a proactive role in law enforcement and crime prevention.

## **Tell Me Why My Children Died** - Charles L. Briggs 2016-05-27

Tell Me Why My Children Died tells the gripping story of indigenous leaders' efforts to identify a strange disease that killed thirty-two children and six young adults in a Venezuelan rain forest between 2007 and 2008. In this pathbreaking book, Charles L. Briggs and Clara Mantini-Briggs relay the nightmarish and difficult experiences of doctors, patients, parents, local leaders, healers, and epidemiologists; detail how journalists first created a smoke screen, then projected the epidemic worldwide; discuss the Chávez

government's hesitant and sometimes ambivalent reactions; and narrate the eventual diagnosis of bat-transmitted rabies. The book provides a new framework for analyzing how the uneven distribution of rights to produce and circulate knowledge about health are wedded at the hip with health inequities. By recounting residents' quest to learn why their children died and documenting their creative approaches to democratizing health, the authors open up new ways to address some of global health's most intractable problems.

## **China's Outbound Tourism** - Wolfgang Arlt 2006-09-27

The People's Republic of China has changed from a country which actively discouraged tourism into one of the major source markets for the international industry; the 35 million Chinese travelling across the border in 2005 are merely the tip of the iceberg. China's Outbound Tourism is the first book on this major development and has been written using a multitude of sources from China and around the world. The topic is approached from many angles, using methods from the fields of economics, political sciences, sociology and cross-cultural studies. The book explains the economic and social background of the surge in tourism and the changes in policy in the country since 1949, when it moved from prevention through controlled development to encouragement of outbound travels. Throughout the book, facts and figures are given for the global development as well as in-depth information about China's key destinations. The growing importance of tourists from China is however not just a question of quantity; the text explains the features which distinguish their travel motivations and behaviours from 'western' and Japanese tourists, and the consequences for product adaptation and marketing methods for destinations interested in attracting and satisfying Chinese tourists. Arlt's groundbreaking book cannot be ignored by professionals, academics and students of tourism and leisure; it offers fresh insight into the topic and indicates some of the future lines of development in this area.

*Hearts in Darkness* Keri Arthur 2013-08-27

PASSION WITH A BITE Private Investigator Nikki James has a lot to contend with. Her lover, Michael Kelly, walked out without so much as a goodbye, and what seemed like a simple case of stopping a runaway teen brought her face-to-face with another clutch of deadly vampires. But if that seemed bad, it is about to get a lot worse, because when Michael returns, it is not for her, but for the case. Wealthy men are starting to vanish from a resort in Jackson Hole—which is exactly where Nikki's runaway teen seems to be as well. Something nefarious is going on at the luxury spa, but what? The last thing Michael needs is a confrontation with Nikki—especially when his control over his bloodlust is still so tenuous. But posing as a newlywed couple at the swanky resort may be the best way for both of them to solve their respective cases. This time, Nikki is determined to make Michael see that life apart is worse than death. Yet before she can make him see the light, a specter from Michael's past rises that could destroy any hope she has of a future with him. Because this time the threat isn't physical. It's a matter of the heart. Includes an excerpt of the next novel in Keri Arthur's Nikki and Michael series, *Chasing the Shadows*

Urban Theory and the Urban Experience - Simon Parker 2003-11-06

For the first time *Urban Theory and the Urban Experience* brings together classic and contemporary approaches to urban research in order to reveal the intellectual origins of urban studies, and the often unacknowledged debt that empirical and theoretical perspectives on the city owe to one another. Both students and urban scholars will appreciate the critical way in which classical and contemporary debates on the nature of the city are presented. Extensive use is made throughout of documentary, literary and cultural sources to bring the different theoretical perspectives to life. Discussion points introduce and explain key concepts and intellectual histories in a jargon free manner. End of chapter further readings have also been annotated to encourage additional study.

**Deportation, Anxiety, Justice** - Heike Drotbohm 2018-04-19

This book provides new ethnographic perspectives on the intersections between deportation, anxiety, and justice. As an instrument for controlling international migration, deportation policies may be justified by public authorities as measures responding to anxieties over (unregulated) migration. At the same time, they also bring out uncertainty and unrest to deportable and deported migrants as well as to their social and institutional environments, in which this act of the state may appear deeply unjust. Providing new and complementary insights into what 'deportation' as a legal and policy measure actually embraces in social reality, this book argues for an understanding of deportation as a process that begins long before, and carries on long after, the removal from one country to another takes place. It provides a transnational

perspective over the 'deportation corridor', covering different places, sites, actors, and institutions. Most importantly, it reasserts the emotional and normative elements inherent to contemporary deportation policies and practices, emphasising the interplay between deportation, perceptions of justice, and national, institutional, and personal anxieties. Written by leading experts in the field, the contributions cover a broad spectrum of geographical sites, deportation practices, and perspectives, bring together a long overdue addition to the current scholarship on deportation studies. This book was originally published as a special issue of the *Journal of Ethnic and Migration Studies*.

**Dark Continent** - Mark Mazower 2009-05-20

"A useful, important book that reminds us, at the right time, how hard [European unity] has been, and how much care must be taken to avoid the terrible old temptations." --Los Angeles Times *Dark Continent* provides an alternative history of the twentieth century, one in which the triumph of democracy was anything but a forgone conclusion and fascism and communism provided rival political solutions that battled and sometimes triumphed in an effort to determine the course the continent would take. Mark Mazower strips away myths that have comforted us since World War II, revealing Europe as an entity constantly engaged in a bloody project of self-invention. Here is a history not of inevitable victories and forward marches, but of narrow squeaks and unexpected twists, where townships boast a bronze of Mussolini on horseback one moment, only to melt it down and recast it as a pair of noble partisans the next. Unflinching, intelligent, *Dark Continent* provides a provocative vision of Europe's past, present, and future—and confirms Mark Mazower as a historian of valuable gifts.

**USB Embedded Hosts** - Jan Axelson 2011-11-01

Developers who want to access USB devices from their embedded systems will find a helpful resource in *USB Embedded Hosts: The Developer's Guide*. This new book from the author of *USB Complete* shows how small systems can take advantage of the same wealth of USB devices available to conventional PCs. Readers then learn which USB host requirements are relaxed for embedded systems and what new requirements some embedded systems must meet. To help in selecting a development platform, the book explores available hardware and software for USB host communications in small systems. The heart of the book focuses on communicating with USB devices. The topics (with example code) include USB drives, keyboards, virtual serial ports, network bridges, mics, speakers, video cameras, and printers, plus devices that don't fit defined USB classes. Also discussed are systems that support both USB host and device functions. The example code is written for the BeagleBoard-xM open development board using a distribution of Linux targeted to small systems. **Fractured Times** - Eric Hobsbawm 2014-05-06

Eric Hobsbawm, who passed away in 2012, was one of the most brilliant and original historians of our age. Through his work, he observed the great twentieth-century confrontation between bourgeois fin de siècle culture and myriad new movements and ideologies, from communism and extreme nationalism to Dadaism to the emergence of information technology. In *Fractured Times*, Hobsbawm, with characteristic verve, unpacks a century of cultural fragmentation. Hobsbawm examines the conditions that both created the flowering of the belle époque and held the seeds of its disintegration: paternalistic capitalism, globalization, and the arrival of a mass consumer society. Passionate but never sentimental, he ranges freely across subjects as diverse as classical music, the fine arts, rock music, and sculpture. He records the passing of the golden age of the "free intellectual" and explores the lives of forgotten greats; analyzes the relationship between art and totalitarianism; and dissects phenomena as diverse as surrealism, art nouveau, the emancipation of women, and the myth of the American cowboy. Written with consummate imagination and skill, *Fractured Times* is the last book from one of our greatest modern-day thinkers.

Considering the city's social and physical articulations, the prospects for continued democracy and civic engagement, and interpretations of a 'good city', these essays represent the cutting edge of urban studies. *The Urban Moment* is a provocative examination of urban theory, offering European, North American, and South American perspectives. An exciting and comprehensive addition to the series, this book is critical for Urban Studies scholars as well as those studying the city in sociological, political, or cultural disciplines.

These include premarital and prenatal screening, the regulation of the body and its imagery among appearance-impaired children and their families, the screening and sanctifying of the body as part of the bereavement and commemoration of fallen soldiers, and the discourse of the chosen body as it surfaces during terrorist attacks, military socialization, war, and the peace process.

**Michael O'Leary** - Alan Ruddock 2008-03-27

Michael O'Leary is a business giant. He transformed Ryanair from a loss-making joke of an Irish carrier into one of the most valuable airlines in the world, and in the process he has revolutionized the very nature of commercial aviation. In this, the first biography of O'Leary, Alan Ruddock portrays the man in three dimensions and examines the business miracle - often talked about but poorly understood - that O'Leary has wrought. 'Ruddock's fast-paced retelling of Ryanair's rise and rise confirms O'Leary's insistence that his success has little to do with the management maxims of business gurus and everything to do with graft and ruthless attention to detail' *Observer* 'Probably the definitive Ryanair story ... a good read' *Sunday Independent* 'The fullest and most accurate picture of O'Leary to date' *Irish Daily Mail* 'Unlike previous books which simply chart the growth of the airline, this one is bound to get under O'Leary's skin because it reveals a great deal about his hugely driven character' *Irish Independent* 'Ruddock is good on the flavour of the man, a bundle of energy whose two favourite words start with an F and an S (they aren't flower and sugar)' *Irish Examiner*

**Imagined Masculinities** - Mai Ghousseub 2000

This book looks at the process by which stereotypical male identities get constructed, reproduced and contested in different parts of the Middle East. **Globalization** - Jürgen Osterhammel 2005

"Globalization" has become a popular buzzword for explaining today's world. The expression achieved terminological stardom in the 1990s and was soon embraced by the general public and integrated into numerous languages. But is this much-discussed phenomenon really an invention of modern times? In this work, Jürgen Osterhammel and Niels Petersson make the case that globalization is not so new, after all. Arguing that the world did not turn "global" overnight, the book traces the emergence of globalization over the past seven or eight centuries. In fact, the authors write, the phenomenon can be traced back to early modern large-scale trading, for example, the silk trade between China and the Mediterranean region, the shipping routes between the Arabian Peninsula and India, and the more frequently traveled caravan routes of the Near East and North Africa--all conduits for people, goods, coins, artwork, and ideas. Osterhammel and Petersson argue that the period from 1750 to 1880--an era characterized by the development of free trade and the long-distance impact of the industrial revolution--represented an important phase in the globalization phenomenon. Moreover, they demonstrate how globalization in the mid-twentieth century opened up the prospect of global destruction through nuclear war and ecological catastrophe. In the end, the authors write, today's globalization is part of a long-running transformation and has not ushered in a "global age" radically different from anything that came before. This book will appeal to historians, economists, and anyone in the social sciences who is interested in the historical emergence of globalization.
