The Praetorian STARShip : the untold story of the Combat Talon - 2001

Jerry Thigpen's study on the history of the Combat Talon is the first effort to tell the story of this wonderfully capable machine. This weapons system has performed virtually every imaginable tactical event in the spectrum of conflict and by any measure is the most versatile C-130 derivative ever produced. First modified and sent to Southeast Asia (SEA) in 1966 to replace theater unconventional warfare (UW) assets that were limited in both lift capability and speed the Talon I quickly adapted to theater UW tasking including infiltration and resupply and psychological warfare operations into North Vietnam. After spending four years in SEA and maturing into a highly respected UW weapons system the Joint Chief of Staff (JCS) chose the Combat Talon to lead

the night low-level raid on the North Vietnamese prison camp at Son Tay. Despite the outcome of the operation the Talon I cemented its reputation as the weapons system of choice for long-range clandestine operations. In the period following the Vietnam War United States Air Force (USAF) special operations gradually lost its political and financial support which was graphically demonstrated in the failed Desert One mission into Iran. Thanks to congressional supporters like Earl Hutto of Florida and Dan Daniel of Virginia funds for aircraft upgrades and military construction projects materialized to meet the ever-increasing threat to our nation. Under the leadership of such committed hard-driven officers as Brenci Uttaro Ferkes Meller and Thigpen the crew force became the most disciplined in our Air Force. It was capable of penetrating hostile airspace at night in a low-level mountainous environment covertly to execute any number of unconventional warfare

missions.

No Future - Lee Edelman
2004-12-06

In this searing polemic, Lee Edelman outlines a radically uncompromising new ethics of queer theory. His main target is the all-pervasive figure of the child, which he reads as the linchpin of our universal politics of “reproductive futurism.” Edelman argues that the child, understood as innocence in need of protection, represents the possibility of the future against which the queer is positioned

as the embodiment of a relentlessly narcissistic, antisocial, and future-negating drive. He boldly insists that the efficacy of queerness lies in its very willingness to embrace this refusal of the social and political order. In *No Future*, Edelman urges queers to abandon the stance of accommodation and accede to their status as figures for the force of a negativity that he links with irony, jouissance, and, ultimately, the death drive itself. Closely engaging with literary texts, Edelman makes a compelling case for imagining Scrooge without Tiny Tim and Silas Marner without little Eppie. Looking to Alfred Hitchcock’s films, he embraces two of the director’s most notorious creations: the sadistic Leonard of North by Northwest, who steps on the hand that holds the couple precariously above the abyss, and the terrifying title figures of *The Birds*, with their predilection for children. Edelman enlarges the reach of contemporary psychoanalytic theory as he brings it to bear

not only on works of literature and film but also on such current political flashpoints as gay marriage and gay parenting. Throwing down the theoretical gauntlet, *No Future* reimagines queerness with a passion certain to spark an equally impassioned debate among its readers.

When Lindsay visits the Downside for the first time, she marvels at the spirit of the Downsiders, and the way they create works of art from topside "trash," like old subway tokens and forgotten earrings. As awed as she is by the Downside, however, she also questions its origins, and when she finds out that this fantastic world is not all it appears to be, she is determined to tell Talon the truth. Metahuman - Deepak Chopra, M.D. 2019-10-01

Is it possible to venture beyond daily living and experience heightened states of awareness? Deepak Chopra says that higher consciousness is available here and now.

"Metahuman helps us harvest peak experiences so we can see our truth and mold the universe's chaos into a form that brings light to the

world."—Dr. Mehmet Oz, attending physician, New York-Presbyterian, Columbia University New York Times bestselling author Deepak Chopra unlocks the secrets to moving beyond our present limitations to access a field of infinite possibilities. How does one do this? By becoming metahuman. To be metahuman, however, isn't science fiction and is certainly not about being a superhero. To be metahuman means to move past the limitation constructed by the mind and enter a new state of awareness where we have deliberate and concrete access to peak experiences that can transform people's lives from the inside out. Humans do this naturally—to a point. For centuries the great artists, scientists, writers, and many so-called ordinary people have gone beyond the everyday physical world. But if we could channel these often bewildering experiences, what would happen? Chopra argues we would wake up to experiences that would blow open your body, mind, and

soul. Metahuman invites the reader to walk the path here and now. Waking up, we learn, isn't just about mindfulness or meditation. Waking up, to become metahuman, is to expand our consciousness in all that we think, say, and do. By going beyond, we liberate ourselves from old conditioning and all the mental constructs that underlie anxiety, tension, and ego-driven demands. Waking up allows life to make sense as never before. To make this as practical as possible, Chopra ends the book with a 31-day guide to becoming metahuman. Once you wake up, he writes, life becomes transformed, because pure consciousness—which is the field of all possibilities—dawns in your life. Only then does your infinite potential become your personal reality.

The King in Yellow - Robert William Chambers 2020-09-28
Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the

State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous; Chicago, for a moment paralyzed after a second great

fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The

Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring sects together, many thought the millennium had arrived, at

least in the new world which after all is a world by itself.

The Tall Stranger - Louis L'Amour 1986-07-01

Wagon trains heading west were forced to defend themselves against Indians, cope with injuries and illness, and struggle to find food. The group of easterners Rock Bannon was scouting for faced another problem. They were being deceived. When he warned them to remain on the Humboldt Trail, Sharon Crockett and the others refused to listen. Mort Harper, a stranger riding a beautiful black mare, had dazzled them with his charm and good looks. The southern route was the best way to go, Harper told them. But best for whom? Bannon wondered. That route led straight to the Salt Lake Desert. The conditions would be brutal. And if Harper wasn't steering them toward those deadly alkali flats, where were they headed? And what would happen once they got there?

Rosenthal 2019-08-08
The Adventure and Romance of America, her people, her spirit and the West. Fourth novel of thirty-three books of the Threads West, An American Saga series--compared by reviewers, authors and readers to Lonesome Dove, Centennial, Louis L'Amour (with steam) and called by some the "Gone with the Wind of the West" and applauded by others as "rings true and poignant, as authentic and moving as Dances with Wolves". This multiple #1 bestselling series—winner of fifteen National Awards, (including Best Historical Fiction, Best Romance, and Best Western)—bursts with the adventure, romance and promise of historical America set in the West. The epic saga of Threads West begins in 1854 with Book One. We meet the first of five richly-textured, complex generations of unforgettable characters. The separate lives of these driven men and independent women are drawn to a common destiny that beckons seductively from the wild and remote flanks of

the American West. In Book Two, Maps of Fate, they are swept into the dangerous currents of the far-distant frontier by the mysterious rivers of fate, the power of the land and the American spirit. Secret maps, hidden ambitions, and magnetic attractions inherent in lives forged by the fires of love and loss, hope and sorrow, life and death, shape their futures and the destinies of their lineage. In Book Three, Uncompahgre, the men and women of the saga having reached their initial destination: pre-Denver, Cherry Creek, are each faced with life altering decisions. Some must decide to pursue or abandon torrid love affairs that have flowered on the dangerous journey from Europe and across America. An aristocratic vaquero chased North by the Texas Rangers catapults into the tale. The next generation of Threads West characters will soon be born in the wilderness. The elderly slave couple, Oglala Sioux family, and renegade -- and his young, traumatized

captive introduced in Maps of Fate—are bound ever more tightly to the arc of the tale -- their tragedy and triumph-filled tales weaving into the cloth of a collective destiny. In Moccasin Tracks, Book Four, the brave, passion-filled characters of Uncompahgre struggle in this unknown wilderness, racing against an early, foreboding winter to establish their homestead, some preoccupied with serious pre-birth complications of the next generation of Threads West characters, other's compelled by an inner sense to blaze a separate trail, but all united to fend off ever-present dangers. The different personalities of their surviving offspring begin to manifest, some in disturbing ways. The Sioux family, bewildered by the increasing attack on their culture is swept unknowingly into the tumultuous vortex of momentous changes shaping the United States and the West as the tidal wave of white man's greed and intolerance inundates their ancestral territory. Land, love, gold,

tradition and the burden of family responsibility shape these characters of divergent origin as they love and struggle in the beautifully vibrant but unforgiving landscape of the West. The personal conflicts inherent to these characters of uncommon cultures and competing ambitions are exacerbated by a nation in transition, the precipice of Civil War, and both deep bonds and lethal enmities with Native Americans. You will recognize the characters who live in these pages. They are the ancestors of your friends, your neighbors, your co-workers, and your family. They are you. They are us. This is not only their story. It is our story. It is Threads West, An American Saga.

Orphan Train - Christina Baker Kline 2013-04-02

The #1 New York Times Bestseller Now featuring a sneak peek at Christina's forthcoming novel *The Exiles*, coming August 2020. "A lovely novel about the search for family that also happens to illuminate a fascinating and forgotten chapter of America's history. Beautiful."—Ann Packer Between 1854 and

1929, so-called orphan trains ran regularly from the cities of the East Coast to the farmlands of the Midwest, carrying thousands of abandoned children whose fates would be determined by pure luck. Would they be adopted by a kind and loving family, or would they face a childhood and adolescence of hard labor and servitude? As a young Irish immigrant, Vivian Daly was one such child, sent by rail from New York City to an uncertain future a world away. Returning east later in life, Vivian leads a quiet, peaceful existence on the coast of Maine, the memories of her upbringing rendered a hazy blur. But in her attic, hidden in trunks, are vestiges of a turbulent past. Seventeen-year-old Molly Ayer knows that a community service position helping an elderly woman clean

out her home is the only thing keeping her out of juvenile hall. But as Molly helps Vivian sort through her keepsakes and possessions, she discovers that she and Vivian aren't as different as they appear. A Penobscot Indian who has spent her youth in and out of foster homes, Molly is also an outsider being raised by strangers, and she, too, has unanswered questions about the past. Moving between contemporary Maine and Depression-era Minnesota, *Orphan Train* is a powerful novel of upheaval and resilience, of second chances, and unexpected friendship.
